The course will enhance your dog's abilities and skills to work in tactical environments around search teams. We will advance each team as we expose them to some new and unusual training.

This is one of the few courses available that encourages officer teams to accompany K9 teams in training.

The training will be something each team can take away and add to their training programs.

Our team of trainers will help each team to gain confidence in tactical incidents.

**In an effort to maintain a 7 to one instructor ratio please register early.**
